**Ohio Speech and Hearing GAC
Legislative Activities Report
November 2020**

In an unprecedented election, which featured record turnout in the middle of a pandemic, Ohio's Republicans rode voters' support for President Donald Trump to surprise many pollsters by picking up seats in both chambers of the Ohio General Assembly. President Donald Trump was once again successful in Ohio, as he defeated challenger Joe Biden by roughly 8%, nearly the same margin he carried the state with four years ago.

In the Ohio House of Representatives, the GOP flipped four seats and successfully defended some key suburban races where Republicans were expected to lose. Republican Mike Loychik handily defeated Democrat Gil Blair in the 63rd District in Trumbull County. In Portage County, voters elected Republican Gail Pavliga to replace Democrat incumbent Rep. Randi Clites in the 75th House District. GOP candidate Ron Ferguson defeated Democrat Richard Olivito in the 96th District in eastern Ohio, which is being vacated by term-limited Rep. Jack Cera (D-Bellaire). Republican Sarah Fowler, a State Board of Education member, defeated Democrat Richard Dana by 18 points, in the 99th House District in Ashtabula County, currently held by Rep. John Patterson (D-Jefferson) who is term-limited. The House GOP only lost one seat in Cuyahoga County, where Democrat Monique Smith defeated Rep. Dave Greenspan in the 16th House District. If these outcomes stand, House Republicans will hold a 64-35 majority in the 134th General Assembly.

In the Ohio Senate, Republicans appear to have expanded their majority to 25-8 heading into the 134th General Assembly. Senate Republicans picked up one seat when they flipped the 32nd Senate District that saw Democrat Senator Sean O'Brien lose to Republican Sandra O'Brien in the hotly-contested Trumbull County race. Republican incumbent Stephanie Kunze also narrowly defeated Democratic challenger Crystal Lett in the 16th District – a suburban district in western Columbus. The margin in that race is well within that which would be needed

for a recount, and late-arriving absentee ballots and provisional ballots from Election Day could prove decisive.

Democrats did see gains in the Ohio Supreme Court, as Democrat Jennifer Brunner, a judge on the Ohio 10th District Court of Appeals and former Ohio Secretary of State, defeated incumbent Republican Justice Judi French. Republican Justice Sharon Kennedy was able to hold on to her seat, defeating Democrat challenger John O'Donnell with over 55% of the vote. The results mean the court's Republican majority will slip from 5-2 to 4-3.

While Democrats will maintain control of the U.S. House of Representatives, Republicans will continue to hold a 12-4 majority in Ohio's congressional delegation as all incumbents defeated their challengers. This was the final election cycle under the state's current congressional map. The district maps will be redrawn in 2021 using a new system that was approved by voters in 2018, which is designed to provide more bipartisan input.

The Senate Republican caucus announced its leadership team for the upcoming 134th General Assembly starting in January. The caucus unanimously selected Senator Matt Huffman (R-Lima) to serve as the Senate President. Senator Huffman had been seen as the odds-on favorite to succeed term-limited Senate President Larry Obhof next session. The majority caucus also announced that Senator Jay Hottinger (R-Newark) will serve as president pro-tempore; Senator Kirk Schuring (R-Canton) will serve as majority floor leader and Senator Rob McColley (R-Napoleon) will serve as majority whip. The leadership team was chosen by members of the Senate in the 134th General Assembly. They will formally be seated as the chamber's leaders when the Senate convenes on January 4th.

Nearly five months since Dr. Amy Acton stepped down as director, Governor Mike DeWine named a new leadership team at the Ohio Department of Health, including Stephanie McCloud as the new director. McCloud, who had been serving as Bureau of Workers' Compensation Administrator/CEO, will be in charge of operations and administration at the department. Dr. Bruce Vanderhoff will become the new Chief Medical Officer at the Ohio Department of Health, while Lance Himes, who has been the interim ODH director, will become the department's Senior Deputy.

HB 679, a proposal to codify an expansion of telehealth services in Ohio, received its first hearing before the Senate Insurance & Financial Institutions Committee. The bill, introduced in May in the wake of the ongoing pandemic, would expand services health care providers could provide remotely and establish insurance payment guidelines. In sponsor testimony, Representative Mark Fraizer (R-Newark) said health care providers have seen exponential growth in the use of telehealth during the COVID-19 pandemic, and Ohio needs consistency in policies for telehealth to ensure as many people can take advantage of the services as possible. Chairman Bob Hackett (R-London) said implementing telehealth changes through rule, which has already been done through the Ohio Department of Medicaid, initially gives the state flexibility to ensure it is done right. GAC worked to ensure audiologist and speech-

language pathologists were included in both the Department of Medicaid telehealth rule as well as in HB 679. HB 679 would not require patients receive an in-person exam, while the administrative rule does require an annual face-to-face visit. Chairman Hackett has questioned whether there is enough time to pass the legislation before the end of the year.

HB 436, legislation requiring screenings for dyslexia in children, appears to be gaining momentum this lame duck session. The legislation would require ODE to establish the Ohio Dyslexia Committee (ODC), which will work with ODE to develop and update a Dyslexia Guidebook for screening, intervention and remediation for children with dyslexia. The bill will likely undergo changes, which could include a revision requested by GAC that would add an SLP to the ODC and the local multidisciplinary teams created by local schools. In a recent stakeholder meeting, the possibility of merging HB 436 with two other dyslexia-related bills (SB 102 and SB 200) was discussed. GAC will continue to work with stakeholders and key legislators as the legislation is debated during the coming weeks.

SB 238, legislation that would license art and music therapists, received its second hearing in the Senate Transportation, Commerce and Workforce Committee. The committee received dozens of witness testimony in support of the measure, claiming that licensure of art and music therapists would expand access to therapy services and protect consumers from unqualified or unethical practitioners. A third hearing, which will likely feature opponent testimony, has yet to be scheduled. GAC has been in contact with other stakeholders who have opposed past efforts to license art and music therapists and is prepared to testify should another committee hearing be scheduled.

Ohio Medicaid announced it is seeking applications until December 16th from insurers and other managed care organizations to oversee and coordinate the specialized treatment of children in a new program called OhioRISE. The OhioRISE plans to cover serious behavioral health needs outside of the normal managed care system, is part of an overhaul of the Medicaid program taking place over the next year. "OhioRISE aims to shift the system of care in Ohio to better serve children in the Medicaid program who need intensive behavioral health care," Medicaid Director Maureen Corcoran said in a webinar announcement. OhioRISE will drive toward aligning care coordination, expanding the availability of in-home and community based services, reducing the use of out-of-home care, and leveraging the state's resources across all agencies to support this unique population of kids. Medicaid anticipates approximately 60,000 eligible children (up to age 21) with significant behavioral health needs will be enrolled in the program.

A \$5 billion dividend from the Bureau of Workers' Compensation earned approval from the BWC's Board of Directors less than a week after being announced by Governor DeWine. DeWine called for the dividend as a way to further help Ohio businesses weather the economic struggles brought on by the coronavirus pandemic. The payments are expected to go out in December. The move earned praise from lawmakers, who said it puts more money in the pockets

of employers while preserving the financial integrity of the State Insurance Fund. The payment represents more than three times what employers pay in premiums each year, and it's on top of the \$1.5 billion dividend that the bureau paid to employers in October and another \$1.5 billion payment in April.

With the election now in the rearview mirror, lawmakers can begin focusing on pending legislative issues that they hope to address during lame duck session. Any legislation not passed by the end of the year, will have to be reintroduced next session. At this point, COVID-19's impact on lame duck is relatively unknown; however, it will certainly play a role as legislative leaders plan for what will likely be a robust agenda leading up to the end of the year.
